

## Donate to Angsamerah Foundation

Donating now is taking positive action to end the HIV epidemic and improve the sexual and reproductive health situation in Indonesia.

Your donation, no matter how big or small, has a direct impact on the lives of people living with HIV and AIDS, those most at risk of contracting HIV and/or other STIs and the people who love them.

Angsamerah Foundation's mission is to provide high-quality, friendly, affordable and private sexual and reproductive health services to all members of society, regardless of their gender, sexual orientation, marital status, or ethnic and religious affiliation. Services are provided through the Foundation's clinic (Klinik Yayasan Angsamerah) in South Jakarta.

Your donation allows us to keep prices at an affordable level and to regularly provide free testing promotions for marginalized populations (e.g. for the youth and transgender people).

Here are some examples of what your support will provide, approximately:

Rp 200.000	CD4 test for one HIV patient
Rp 500.000	Pap smear tests for 3 patients
Rp 1.000.000	HIV and CD4 tests for 5 patients
Rp 2.000.000	HIV and Syphilis tests for 50 patients
Rp 15.000.000	Doctor internship support for 6 months
Rp 30.000.000	Clinic operating expenses for one month

Simply make a transfer to the account below and please send us a message using the online contact form or email [customer@angsamerah.com](mailto:customer@angsamerah.com) to tell us your name and the amount you have donated for proper tracking.

Feel free to contact us if you are interested to learn more about Angsamerah Foundation and how you can help.
